

\$Themass Whitepaper

1. Our Vision

\$Themass, An decentralized, deflationary Defi token that automatically reward BNB. The innovative buyback mechanism and community-driven base guarantees the long-term benefits of holders.

2. Introduction

Themass Whitepaper aims to educate readers on our vision, strategy and roadmap. Below we illustrate in detail our unique mechanism. The reward redistribution concept was firstly held by Safemoon, and then HODL, Ghostface has made it BNB redistribution and website claimable, now \$Themass has integrated and made it even further to automatically reward direct to holders' address for our holders having passive income without any effort.

What's innovative is that \$Themass improve the anti-dump whale pool mechanism, which includes not only the BuyBack but also a series of planned pump strategies when the pool is filled. In other words, more transactions, the higher the price. There will be a visual chart that tells holders when will the pump happen, holders will know the exact timing of price pump, the solid price increasing estimation will stimulate more and more holders to buy more, which is NEVER DUMP and ONLY PUMP!

3. Tokenomic

1. NEVER DUMP, ONLY PUMP

6% bnb of each transaction is fueled into the whale pool for buy back and burn

The whale pool has two functions:

- If the currency price drops by 5%, Whale Pool will automatically start, and the contract will use 1% bnb of Whale Pool to buy back tokens and destroy them.
- A series of huge pump buyback when the pool is filled:
 - i. When the whale pool is filled with 500bnb, it will automatically use 20% to buy back and destroy to enter the black hole.
 - ii. The whale pool is filled with 1000bnb, use 25% repurchase and destroy to break into the black hole
 - iii. The whale pool is filled with 2000bnb, use 30% repurchase and destroy to break into the black hole
 - iv. The whale pool is filled with 5000bnb, using 35% repurchase and destruction to break into the black hole
 - v. The whale pool is filled with 10000bnb, using 40% repurchase and destruction to break into the black hole(I-iv can only be triggered once. Except for the last one, the last one can be triggered indefinitely, and it will be triggered again every time the whale pool filled with 10000bnb)

2. HODL TO EARN

4% of each transaction is collected and distributed to the holders according to the proportion of the holdings, and the holdings of the holdings will pay dividends bnb. It is automatically distributed to currency holders every 4 hours.

Special improvements:

- The top 10 coin holding addresses do not participate in dividends. (Including team allocation).
- Holders of less than 1 million will not participate in dividends.

3. 4% of each transaction is automatically fuel into the liquidity pool

4. Token Information

Network: Binance Smart Chain (BEP-20)

Token: \$Themass

Contract address: To be announced

Decimals: 16

✕ **TOTAL SUPPLY:** 10,000,000,000,000,000

✕ **TOKENS LOCKED:** 4,000,000,000,000,000 (40%) Renew lock monthly upon community vote

✕ **TOKENS FOR COMMUNITY DEVELOPMENT:** 500,000,000,000,000 (5%) Locked for 2 months

✕ **TOKENS FOR MARKETING WALLET:** 700,000,000,000,000 (5%)

✕ **TEAM FUND:** 1,500,000,000,000,000 (15%) Unlock Date : 6 months minimum

✕ **TOKENS FOR AIRDROP :** 500,000,000,000,000 (5%)

✕ **TOKENS FOR PRESALE AND INITIAL LIQUIDITY:** 3,000,000,000,000,000 (30%)

✕ **Soft Cap:** 1000BNB

✕ **Hard Cap:** 1800BNB (will be burned if not filled)

✕ **Presale Time :** XX at 5PM (UTC) (to be announced)

✕ **Liquidity Locked:** 80% – Unlock Date : 6 months minimum

5. \$Themass Launch

The protocol will be launched on XX July, 2021(to be announced) through one presale on BOUNCE.FINANCE.

- **How does it work?**

Presale will be launched on bounce.finance. The presale link will only be sent in the telegram group with a password, with 1800 BNB fundrasing.

- **DEX public listing**

Following the presale, \$Themass tokens will become available for purchase on PancakeSwap Exchange.

6. Security of \$Themass

Locked Liquidity Initial liquidity will be locked for a minimum of 6 months to provide holders with peace of mind that the token can always be exchanged. A trusted 3rd party, DXSALE, will operate as the middle man to ensure that all raised liquidity is locked in a secure locker for the full timeframe.

(incoming)Contract Audit Prior to Launch In an effort to increase transparency and ensure security, the team has purchased a top-tier audit with [HASHEX](#). We'll be able to ensure no vulnerabilities can be found such as:

- Integer Overflow
- Integer Underflow
- Callstack Depth Attack
- Timestamp Dependency
- Parity Multisig Bug
- Transaction-Ordering Dependency

The token contract is verified and available for viewing on bscscan.
